YESIM KOZANLI
ARCHITECTURE &
INTERIOR DESIGN

YEŞİM KOZANLI

Yesim Kozanli, who graduated from Bilkent University, Faculty of Fine Arts, Department of Interior Design and Environmental Design in 1994, started her career by establishing her own architecture office. Initially, residential and commercial projects were being worked on, as well with interior designs of shop and restaurants. Over time, we have become accredited to many brands, including international hotel chains, by specializing in hotel projects with our office. In addition to simplicity and function in design, we continue to create extraordinary new concepts by using different materials and different colors together.

Yesim Kozanli considers that it is necessary to take interior architecture projects with architecture projects at the same time and they are a whole, and establishes business partnerships with employers where mutual trust and solution-oriented actions are at the forefront. She offers interior design and architectural solutions suitable for world brands after countless projects with international chain hotels with more than 29 years of experience in this field. She continues to create and implement different concepts at her work in Turkey and abroad. She enables brands to establish a special bond with their customers through her projects she implemented.

YESIM KOZANLI ARCHITECTURE & INTERIOR DESIGN

Yesim Kozanli, who celebrates her 28-year career in architecture, will continue to serve under the name of Yesim Kozanli Architecture & Interior Design.

Yesim Kozanli Architecture, which operates in the fields of Interior Design Projects, Project Management, Time Planning of Interior Design Processes, Consultancy, Purchasing Consultancy, develops new design products and concepts specific to each project and she continues to lead extraordinary projects with her experience and expert team in the sector by combining the right form and useful functions and making your spaces more livable.

WHAT WE DO...

We are a part of the modern culture and we believe in imagination. Yeşim Kozanlı Architecture & Interior Design gathers a group of designers, most of whom are architects and interior designers, who focuses on creativity andemphasises the interest in high-end level detailing.

Yeşim Kozanlı develops a new perception, a new vision, merging together with diversed cultural elements and materials by using the healing power of art, in the field of interior design, architecture, project management and purchasing consultancy both in domestic and international market. Under the guidance of local inspirers, we use study skills on research and analysis and master up to achieve "the better" diligently with our discipline and energy.

RIXOS HALF MOON BAY

Rixos Half Moon Bay offers a timeless design experience where nature and modern luxury come together in perfect harmony. The design concept centers around the captivating dance of water and light, drawing inspiration from the serenity of the desert, the abstract patterns of salt lakes, and the richness of local culture. Tonal earth colors, natural materials, and contemporary interpretations of traditional motifs create a refined sense of unity across both architecture and interior spaces. Light-sculpted volumes, expansive areas, and constant engagement with nature provide guests with both physical and emotional tranquility. Rixos Half Moon Bay is more than just a place to stay - it is a unique destination where nature, culture, and design converge into a sensory journey. This extraordinary concept is born from the mesmerizing connection between sea, sand, and sun, and the ever-changing visual poetry they create.

SWISSOTEL BODRUM HILL

Swissotel Bodrum Hill is a luxury hotel project inspired by the unique nature of Bodrum, where elegance meets the tranquility of the landscape. The design harmoniously blends the region's characteristic flora, earthy tones, and natural stone textures with a contemporary approach. Every detail is thoughtfully crafted to offer guests a refined yet nature-connected living experience. Perched on a hillside, the hotel embraces the breathtaking views, striking a perfect balance between serenity and sophistication.

XO COLLECTION – CAPE ARNNA

This hotel room, enriched with earthy tones, is designed to create a natural and peaceful atmosphere. The warm and inviting ambiance of the room is achieved through the harmonious use of soft colors such as brown, beige, and cream. This color palette further accentuates the natural texture and beauty of the wooden materials used in the room. There is an extensive use of wood throughout the space, from the bed headboard to the wall panels, furniture, and floors. This choice of material represents a sustainable and eco-friendly approach while simultaneously increasing comfort and durability in the room. The interior lighting is provided by warm and soft lights that gently emphasize the wood and earthy tones in the space. As a result, this hotel room offers its guests an immersive, comfortable, and relaxing experience in harmony with nature.

MINSAR

Located in Istanbul's Bakırköy district, Minsar Hotel offers a timeless design language by blending modern luxury with understated elegance. This hotel is not merely a place to stay; it has been envisioned as a strong expression of spatial harmony, meticulous attention to detail, and contemporary sophistication. Natural stone surfaces meet delicate touches of gold to create a refined atmosphere, while high ceilings, expansive glass panels, and sculptural lighting elements bring a sense of openness, brightness, and architectural grandeur. Furniture shaped with clean lines and textured fabrics evoke a serene sense of comfort in every corner of the hotel. The public areas of Minsar Hotel reinterpret traditional grandeur through the lens of modern minimalism. Crystal-detailed chandeliers establish a rhythmic dialogue with the marble columns, emphasizing the verticality of the space, while emerald green and earthy tones used in the lounge areas reflect a subtle connection to nature.

PALOMA GRIDA

Paloma Grida is a luxurious resort hotel nestled in the enchanting natural beauty of Antalya, aiming to offer its guests a healthful and peaceful accommodation experience. This unique place harmoniously blends the elegant lines of traditional Mediterranean architecture with a modern design approach, hosting a stunning tower at the hotel's entrance; this tower encompasses welcoming, lobby, and reception areas, inviting visitors into a fairy-tale world. The heart of the hotel, Agora Road, takes guests on a unique journey from the entrance to the beach, where artificial lagoons and rooms overlooking these lagoons serve like private pools, bringing the tranquil atmosphere of water and natural vegetation right into the rooms. The design, detailed with amorphous and soft transitions, offers both aesthetic visuality and functional comfort to the visitors. Paloma Grida promises an excellent accommodation experience in every corner while being designed to meet all the needs of its guests; thus, visitors depart rejuvenated both physically and mentally. This exclusive resort blends the mystical atmosphere of the Mediterranean with modern luxury, promising unforgettable moments and lasting impressions.

SWISSOTEL MARIANSKE LAZNE

This resort hotel, designed near Prague in Marianske Lazne, stands out for its modern interior architecture and the unique feature of natural thermal water sources within the property. Sleek lines, minimalist furniture, and a neutral color palette create a harmonious blend of functionality and aesthetics. The natural luxury of thermal water is showcased in specially designed pools and thermal baths within the spa and relaxation areas. Large windows and glass walls allow for an abundance of natural light, seamlessly integrating the natural beauty of the surroundings into the interior spaces. All these elements come together to make the hotel not just a place to stay, but also a venue offering a restorative and relaxing experience.

DAKAR PENTHOUSE

Perched atop Dakar's modern skyline, this penthouse offers a breathtaking panorama and a refined interpretation of contemporary living.

With a design philosophy rooted in simplicity and elegance, the interiors blend the cool sophistication of marble with the warm texture of wood, creating a harmonious dialogue of contrasts.

Sharp architectural lines, geometric spatial arrangements, and sculptural furniture pieces evoke the feeling of moving through an art gallery, while designer lighting adds depth and character throughout the day.
Every detail –from material choices to spatial organization– reflects a balance between local influences and global design standards.

This penthouse is not just a home; it's a visual and sensory experience that redefines modern urban living in the heart of Dakar.

LADYBUG HOUSE

Lady Bug Project, built on a eight acres land, becomes the modern face of the Aegean with its pleasant ambiance that can be experienced in whole year, four seasons. In line with this, four building blocks are designed in the project without breaking the integrity of the space. The harmony of different moods were the focus in the guest house, the kitchen, living room, master bedroom and study room are designed independently from each other. The main materials consisting of glass, stone, concrete and wood are brought together with natural textures in the general design.
